

Gabriel-Robert Romea

Frontend Developer

Frontend-focused full-stack engineer with 4+ years of experience building web apps across the React, TypeScript, and edge ecosystem (Next.js, Convex, Cloudflare Workers). I handle the full cycle — from clean UI components down to backend architecture and deployment. Lately I've gone deep on AI engineering — building agentic workflows, multi-agent tooling, and LLM-powered features with the Anthropic API and Claude Code. I'm comfortable taking a project from zero to production alone, or jumping into a fast-moving team.

WORK EXPERIENCE

Frontend Developer

03/2022 – Present · Remote

Matrix Software House

- Build and ship responsive web applications for international clients using Next.js, React, and Webflow.
- Translate Figma and AdobeXD designs into clean, reusable UI components.
- Work across the stack — from front-end interfaces to Node.js and MySQL back-ends — delivering projects end to end.

Technologies: Next.js, React, Webflow, JavaScript, HTML, CSS, SCSS, Node.js, MySQL, AdobeXD, Figma

Independent Engineer (PFA)

2022 – Present

Freelance

- Build AI-powered features and internal multi-agent tooling using the Anthropic API, Vercel AI SDK, and Claude Code to automate product and development workflows.
- Deliver custom, modern web solutions for clients end to end, primarily with Webflow and Next.js (React).
- Own the full process: design, development, deployment, and client communication.

Technologies: Next.js, Webflow, Convex, Supabase, Strapi, Claude Code, Python, Tailwind, Cloudflare, Vercel

EDUCATION

Faculty of Electrical Engineering & Computer Science

10/2017 – 07/2021

Applied Electronics · Braşov, Romania

Bachelor's degree: 8.50. Core curriculum focused on programming and engineering fundamentals, including Web Development, Python, Java, C++, C, Verilog, VHDL, and LaTeX.

IT School Academy

09/2021 – 04/2022

Web Development · Timişoara, Online

Intensive 6-month live training mentored by a senior web developer with extensive industry experience. Studied and applied React, JavaScript, Bootstrap, Tailwind, and SCSS in a professional environment.

SKILLS

Next.js

React

TypeScript

Convex

Supabase

Cloudflare Workers

Vercel

Node.js

Strapi

Claude Code

Webflow

Docker

HTML5

CSS3

Bootstrap

Figma

AdobeXD

Git

Python
